

EAST GREENWICH TOWNSHIP SCHOOL DISTRICT

Andrea Evans, Superintendent

Gregory Wilson, Business Administrator

June 8, 2021

Dear East Greenwich Township School Community,

As the end of the school year approaches, please find an update on masking requirements:

- Masks continue to be optional outdoors when the temperature is 75 degrees or higher.
- Masks continue to be required indoors. Our school buildings are climate-controlled and not subject to extreme heat. In the event of an HVAC issue or failure in a specific room or area of the building, mask requirements will be relaxed, and parents will be notified of the temporary change.

We are eager to return a traditional school year in September 2021 with clear guidance regarding required health and safety protocols. As New Jersey Department of Health or New Jersey Department of Education official information is made available throughout the summer months, we will continue to share it with our families.

Thank you for your continued support as we navigate our last week of the 2020-2021 school year.

Sincerely,

Andrea Evans
