SAMUEL MICKLE SCHOOL

EAST GREENWICH TOWNSHIP SCHOOL DISTRICT

Mrs. Bethanne Barousse, Principal

Mr. Andrew Mettler, Assistant Principal

May 29, 2025

Dear Samuel Mickle School Community,

Over the past few months, the 4th Grade SOAR Team has conducted a project related to exploring and understanding school conservation efforts. The team studied cafeteria waste by analyzing patterns of waste in three categories: unopened items, trash, and uneaten food. Trash was tracked for two weeks and then launched into a No-Waste Lunch Challenge where students created an actionable solution to reduce food waste by 20% and an educational video was created and shared as a means of sharing the team's mission, data, and overall goal.

It is with great pleasure and pride to announce that out of 200 total teams, Ms. Macaluso and the Mickle 4th Grade SOAR Team won the 3rd-5th grade division of the Empowered School Competition for their work with sustainable energy, tracking trash data, and completing several interactive missions!

In addition, our 5th Grade SOAR Team won the "Outstanding Model Award" for their outstanding architectural and design elements for a colony on Mars. This award was granted on behalf of The Cosmic Leap Foundation's Space Colony Competition. We are so proud of our students' research and building efforts and hope that this experience has fostered a deepened interest in space exploration. To honor our SOAR students and their accomplishments, Snapology will be attending Samuel Mickle next week to provide our SOAR students with an engaging, hands-on STEAM experience.

Thank you, Ms. Macaluso, for bringing energy, creativity, and passion into every lesson. Her ability to blend science, technology, and engineering into engaging, hands-on experiences makes learning exciting and meaningful for her students. Her dedication and enthusiasm truly make a lasting impact on all students she teaches. We look forward to honoring Ms. Macaluso and the Mickle SOAR students at the June Board of Education meeting. Congratulations!

Sincerely,

Bethanne Barousse

Curriculum and Instruction Office Report

Submitted by:

Mrs. Lisa Giorgianni, Director of Curriculum and Instruction

Regional Curriculum Meetings/Training:

- Gloucester County Curriculum Consortium Meeting - Will resume in 2025/26
- Gloucester County Math Supervisors Meeting - Will resume in 2025/26
- Gloucester County Science Consortium Meeting - Will resume in 2025/26
- Gloucester County ELA/SS Curriculum Meeting - Will resume in 2025/26

Observations:

- District administrators are now finalizing summative meetings with staff, following the completion of observations.
- Staff members are working on the 2025/26 Professional Development Plan.

Testing/Benchmarking:

- All end-of-the-year benchmarking is complete. Parents have been provided information regarding reporting.
- The assessment calendar for the 2025/2026 school year is under development.

Future Planning and Preparation:

- NJSLA testing is complete! Testing went smoothly with the help of our faculty, staff, and NJSLA testing team.
- Information was sent to 5th-grade parents regarding the criteria and placement for Math 7 (formerly known as Advanced Math) in Grade 6. Students who met the requirements to take the Math 7 Screener took it on June 2nd. Letters regarding Math 7 placement will be sent home on June 13th.
- Our ELA pilot for a new literacy program for Beginners through Fourth grade is complete, and the chosen resource for the 25/26 school year is Fishtank ELA. Fishtank is a program that aims to develop students into critical readers, writers, and thinkers. The two primary goals of the ELA curriculum are to instill a love of reading in all students by introducing them to engaging texts and authors, and to help students develop an understanding of their surroundings. Using authentic, engaging read-aloud texts, teachers help students develop their language comprehension and address grade-level reading, writing, language, and speaking and listening standards.
 - Our staff completed a half-day Fishtank with Mrs. Giorgianni and the Teacher on Assignment, Mrs. Kemner. In this small group setting, the staff was introduced to the guiding principles of the program, an overview of the key components of the resource, and instructed on how to complete an analysis of the complexity of texts. Teachers used the texts from unit 1 and were provided with their instructional materials. This small setting allowed for a collaborative experience that supported them in preparing for summer break, ensuring they would be ready for September.
 - We are looking forward to memorializing decisions this summer for Fishtank during our curriculum work to shape the practice for our district using this tool.

- With the adaptations made to the New Jersey State Learning Standards for English Language Arts, we are moving forward with piloting a new phonics resource in the 25/26 school year. One teacher in each K-2 grade level will pilot the resource UFLI (University of Florida Literacy Institute). Additionally, we will offer a second pilot option to supplement our current phonics resource, Foundations. One teacher in each K-2 grade level will pilot the resource Heggerty for phonemic awareness. By piloting both resources over the entire year, we can gauge the acquisition of phonics skills to make an informed decision. Staff members who are piloting the program were trained this month and were provided with manuals and materials to start in September. This summer, they are provided hours for planning and preparing. We are looking forward to the yearlong pilot.
- Planning is almost complete for our summer WIN program! Parents of students invited to the WIN program have been notified. We are excited for the opportunities to come for this group of students this summer.
- The curriculum department is planning and preparing for summer curriculum work for revisions.

24-25 SCHOOL YEAR TRANSPORTATION - Route planning continues for our in district students. Out of district applications for 25/26 have been submitted to Gloucester County Special Services. The Child Study Team will provide me with the in district applications by the last day of school so I can design the pre school and aided elementary age routes. I am waiting on some final details before I reach out to lottery preschool students regarding transportation requests. This information is required to design the routes to put out to bid.

CHANGE IN BUS STOP - I have worked with the East Greenwich Police Department to adjust a bus stop location. Parents reached out to me with concerns about cars passing the bus when the stop arm and red lights were engaged. After visiting the stop, I was able to adjust the stop and the EGPS Traffic Officer agreed with the new location. Reports from parents have been positive.

REGISTRATION

BEGINNER REGISTRATION - I currently have the names of 116 children who will be a part of our 25-26 Beginner class. I am working with the parents of 4 of these students to finalize the registration. Last year at this time, I had the names of 134 children for the current school year. The 23-24 Beginner class had 117 names and the 22-23 Beginner class had 137 names at this time. The year prior we had the names of 187 for 21-22, 170 children for the 20-21 Beginner class and 172 for the Beginner class for 19-20.

NEW STUDENTS - I have registered 13 new students since my last report. I have partially completed registrations for two preschool students. I have pre-registrations for 7 transfer students for the 25/26 school year. Last year at this time, I also had 7 pre-registrations for transfer students. I have received several phone calls from parents who are planning to move into the district over the summer.

RESIDENCY - There are five students from three families that have expired leases. I have requested a third letter from the superintendent for one of the families. The remaining families have leases that expired in the last week. I have reached out once and will contact these families again.

MISCELLANEOUS

BEYOND THE BELL - I am providing Greg Wilson with month end reports on Beyond the Bell deposits.

NJ SMART - I am working to be sure the required submission is error free.

New Jersey Department of Education

Waiver Application

“Waiver” means approval to avoid compliance with either a specific procedure(s) or a specific rule’s substantive requirements for reasons that are judged educationally, organizationally and fiscally sound.

Instructions

Please submit to the executive county superintendent the completed application and the approved district board of education resolution or other documentation indicating the district board of education’s approval of the application.

As the Department cannot approve a waiver of an entire chapter, subchapter or section, all applications must include a citation at least at the subsection level (e.g., N.J.A.C. 6A:5-1.1(a)). Applications that include a citation for a statute (N.J.S.A. or N.J.S.) or a N.J.A.C. title other than Title 6A will not be accepted.

Application Form

County: Gloucester

County Code #: 15

School District: East Greenwich Township

District Code #: 1180

1. Provide the specific citation(s) for the regulation(s) in Title 6A of the New Jersey Administrative Code (N.J.A.C.) that necessitates the proposed waiver.

N.J.A.C. 6A:13a-7.1 space requirements

- (a) For any school district or charter school that received Preschool Education Aid in August 2017 or thereafter, the district board of education or charter school shall ensure all preschool classrooms in-district or in the charter school, as applicable, and at the contracted private provider and local Head Start agency are a minimum of 950 square feet per classroom consisting of 750 square feet of usable space, 150 square feet of storage, and equipment or furnishings that are either built in or not easily movable, and 50 square feet of toilet room.
2. Describe what the school district intends to accomplish through the waiver that is currently prevented or disallowed by the existing rule(s).

The East Greenwich Township School District has been awarded the Preschool Education Aid. The district plans to utilize eight classrooms in the Jeffrey Clark School for the preschool program. The classroom numbers are 121, 122, 124, 125, 126, 150, 151, and 152. Each classroom is 850 square feet of educational space and 50 square feet of bathroom space, 900 square feet total. The classroom square footage meets both the 750 square feet of education space and 50 square feet of bathroom space requirements, but falls short of the 950 total square foot requirement. By receiving this waiver, the district will be able to have space for eight preschool classrooms to serve the community.

3. Describe why a waiver is necessary to accomplish the desired or measurable result(s).

The waiver would allow us to meet space requirements for the eight preschool classrooms we budgeted for under the Preschool Expansion Aid.

4. Describe how the proposed waiver meets the following three criteria, pursuant to N.J.A.C. 6A:5-1.3(a):
- The spirit and intent of N.J.S.A. 18A, applicable Federal laws and regulations, and N.J.A.C. 6A are served by granting the waiver;
 - The provision of a thorough and efficient education to the school district's students is not compromised as a result of the waiver; and
 - There will be no risk to student health, safety or civil rights by granting the waiver.

The waiver meets the spirit and intent of the requirement and provides a thorough and efficient education with no risk to student health, safety or civil rights by providing the requirements for both educational and bathroom square footage space.

5. Describe the process, including solicitation of input and public comment, employed to inform the community, parents, district board of education members, administrators and staff during the proposal's development.

The waiver was presented to the Board of Education and the community at the June 11, 2025 board of education meeting. Community members were given an opportunity to comment during the public comment portion of the meeting.

EGHSA Fall Festival Fundraiser

Chaired by:

Courtney Woodruff, EGHSA Treasurer

609-970-6540

Introduction

The East Greenwich Home and School Association (EGHSA - a 503C organization dedicated to supporting the students and faculty at East Greenwich Twp. Schools) is pleased to submit this plan for the upcoming EG Fall Festival—a large-scale community event aimed at bringing families together in a safe and engaging environment. The Festival is designed not only to provide a day of fun, games, and entertainment for attendees of all ages, but also to serve as a major fundraiser in support of educational programs and resources. With a fundraising goal of \$50,000, EGHSA is committed to ensuring the event is well-organized, responsibly managed, and compliant with all safety and liability considerations.

Event Description

The Fall Festival will feature a mix of traditional carnival games, bounce houses, rides, food vendors, and entertainment, fostering community spirit and support for our schools. The event will take place on Saturday, October 11th and Sunday, October 12th making it accessible to families and community members at Thompson Family Park located in Mickleton, NJ. The event will run from 11 AM to 5:30 PM (Sunset taking place at 6:25 PM that weekend). No alcohol is permitted. No animals are allowed (unless inside of the dog park located in the back fields, away from the festival grounds as it's public property).

Township Involvement

Although the East Greenwich Township will not be making a monetary contribution to the EG Fall Festival, they are providing significant in-kind support critical to the event's success. This includes assistance from local police, public works, and access to township space, permits, and logistical coordination.

While the East Greenwich Home and School Association (EGHSA) will serve as the primary event organizer, we will continue to collaborate closely with the township committee to ensure a safe, well-managed, and community-focused experience. Events like the Fall Festival promote civic engagement, foster community connection, support local businesses, and contribute to residents' overall well-being.

- Every blower requires a standard 15 amp household outlet to run.
- Larger units do have multiple blowers so that's where events tend to just rent the generators but if you have them in the township somewhere or have plugs in light posts that would work as well.
- Extra weights to be distributed for anchoring. Placement on field away from rides and games.
- The inflatables we currently have quoted require about 9 blowers total.
- Staffing: Specific units require one or more depending on the size.
 - Per the NJ Community Affairs, you would require a total of 9 staff/volunteers. One for EACH Castle, two for the Wild Twist, three for Adrenaline Rush and two for the Double Lane Mammoth.

- Business License and COI required
- Company workers to supervise and staff each ride

General Information

Purpose

In September 2023, the State Board of Education re-adopted N.J.A.C. 6A:7, Managing for Equity in Education, which outlines responsibilities for achieving and maintaining compliance with all state and federal laws governing equity in educational activities and programs. As a result, all school districts, including charter schools and renaissance school projects are mandated to develop a three-year Comprehensive Equity Plan (CEP). The responsibility of each board of education of every public school district and charter school or renaissance school project board of trustees in New Jersey is to identify and correct all discriminatory and inequitable policies, programs, practices and conditions within or affecting its schools. The role of the New Jersey Department of Education (NJDOE) is to ensure that each district, charter school or renaissance school project complies with equity requirements, and to provide guidelines to accomplish that result.

The CEP enables school districts, charter schools and renaissance school projects to demonstrate compliance with all applicable laws, codes, and regulations, including, but not limited to, the following:

Federal Laws

- Titles VI and VII of the Civil Rights Act of 1964
- Title IX of the Education Amendments of 1972
- Section 504 of the Rehabilitation Act of 1973
- Equal Pay Act
- The Americans with Disabilities Act of 1990
- Individuals with Disabilities Education Act (I.D.E.A.)

State Laws

- Article I, Paragraph 5 of the New Jersey State Constitution
- N.J.S.A.18A:36-20, Equality in Educational Programs
- N.J.S.A.10:5 New Jersey Law Against Discrimination
- New Jersey Administrative Code (N.J.A.C.) 6A:7
- N.J.S.A. 18A:35-1, History of the United States and New Jersey
- N.J.S.A. 18A:36-20, Prohibition of Discrimination

Questions

Questions regarding the development, submission, and implementation of the Comprehensive Equity Plan may be sent to countyoffice@doe.nj.gov. Additionally, questions may be directed to the county education specialist at the County Office of Education. The contact list for the county offices of education is available on the NJDOE [County Information and Services](#) webpage.

Submission Deadlines

School districts, charter schools and renaissance school projects must submit the CEP for school years 2025-26 through 2027-28 and corresponding forms to the **County Office of Education** for review and certification of completion no later than **Monday, June 23, 2025**. Pursuant to N.J.A.C. 6A:7-1.8(d), implementation of the CEP for school years 2025-26 through 2027-28 shall begin within 60 days of the Executive County Superintendent's (ECS) certification of completion.

Instructions For Completion of the Comprehensive Equity Plan

Step 1: Designate the Affirmative Action Officer and Establish the Affirmative Action Team

N.J.A.C. 6A:7-1.5 (Appendix A)

Each school district, charter school or renaissance school project shall annually designate a member of its staff as the affirmative action officer (AAO) and provide a resolution approving the AAO. The district, charter school or renaissance school project shall form an affirmative action team (AAT) — a minimum of three individuals — of whom the AAO is a member, to conduct a needs assessment and to develop the CEP. The NJDOE encourages school districts, charter schools and renaissance school projects to ensure a diverse stakeholder group and to invite a member of the community as part of the team. The members of the AAT must be identified on the form provided in this manual (Appendix A) Affirmative Action Team.

Step 2: Analyze Data to Assess Needs for Achieving Equity N.J.A.C. 6A:7-1.4(c)1

Each school district, charter school or renaissance school project board shall assess the school district's needs for achieving equity in educational activities and programs based on an analysis of data including, but not limited to, National Assessment of Educational Progress and State assessment results, preschool-through-grade-12 promotion/retention data, preschool-through-grade-12 completion rates, and re-examination and re-evaluation of classification and placement of students in special education programs if there is overrepresentation within the protected categories listed at N.J.A.C. 6A:7-1.1(a); staffing practices; student demographic data; attendance data; quality of program data; the Federally mandated Civil Rights Data Collection; student access to educational activities and programs; discipline, graduation rate, and postsecondary enrollment; student, staff, and community member interviews; enrollment and scoring in advanced classes; teacher workforce diversity; and stakeholder satisfaction data.

Step 3: Complete the Comprehensive Equity Plan Needs Assessment (Appendix B)

Each school district, charter school or renaissance school project board shall use Appendix B entitled, “District, Charter School and Renaissance School Project Needs Assessment” to conduct a needs assessment of each school. This document is intended to be used as a checklist to assist the AAO and the AAT to identify and eliminate discriminatory practices and other barriers to achieving equity in educational activities and programs. The completed Needs Assessment must be submitted to the county office as part of the documentation that accompanies the CEP. When citing documentation in the Needs Assessment, you must include the document title, date of board of education or board of trustees’ adoption and page number in the document being provided. In conducting the needs assessment, the AAT will ascertain whether the school district (and each school within the district), charter school or renaissance school project is in compliance with each requirement in the checklist and whether there are internal monitoring procedures in place to ensure continuing compliance. Those items needing correction or requiring an internal monitoring procedure or system will form the basis for the improvement strategies that will be proposed in the CEP.

The school district, charter school or renaissance school project needs assessment contains three sections:

- I. **Board Responsibility** — This section sets forth the types of policies and resolutions that the Board must adopt (create if nonexistent, revise if existing but deficient) in order to comply with applicable law. This section outlines specific areas that must be addressed in these policies and resolutions.
- II. **Staff Development** — Staff development and training on equity matters is required annually for all staff, certificated and non-certificated.
- III. **School and Classroom Practices** — This section sets forth the equity requirements for four categories: curriculum, student access, guidance, and physical education/athletics.

Note: At the beginning of each section of the needs assessment, the laws and codes that specifically apply to the section have been provided for your convenience. The NJDOE encourages the AAT preparing the CEP to refer to these sources of legal authority and become acquainted with the mandates they contain.

Step 4: Complete the Comprehensive Equity Plan Corrective Action Forms, if applicable (Appendix C)

After identifying items that were not compliant in Appendix B, improvement strategies covering the next three years must be developed for each identified item. For this purpose, forms specific to each assessment section are provided within the packet.

- I. **Board Responsibilities**
- II. **Staff Development**
- III. **School and Classroom Practices** (One for each sub-area: Equity in Curriculum, Equity in Student Access, Equity in Guidance Programs, and Equity in Physical Education/Athletic Programs)

For each form:

Identify Items that were Not Compliant

In Appendix C, enter the section or subsection of items that were not compliant identified in Appendix B. If a school within a district is not compliant; identify the school(s) by name. If the district, charter school or renaissance school project itself is not compliant, write “district wide, charter school-wide or renaissance school project-wide.” If one school is out of compliance, the entire district is out of compliance and a plan to address the noncompliant schools must be developed.

Develop Improvement Strategies

List each item that was not compliant from the corresponding number in Appendix B, together with the strategies/activities you will use to improve or correct the deficiency. A district, charter school or renaissance school project should ensure that its strategies are specific, measurable, achievable, realistic and time-bound (S.M.A.R.T.).

Assign Staff Responsible

List the names and titles of the personnel that will implement the proposed strategies and activities.

Plan the Implementation Timeline

Indicate the year or specific timeframe that the strategy or activity will take place, (i.e. 2025-2026 school year; 2026-2027 school year, ongoing, etc.).

Provide Evidence of Completion

List the indicator(s) and/or documentation that will be made available for review, if requested, which will verify that the identified item is being or was corrected. Use qualitative or quantitative methods depending on the item that is being corrected. This will set forth the basis for approval of the CEP by the district board of education. The CEP is incomplete if this information is not included. Pursuant to N.J.A.C. 6A:7-1.4(c)4, submission of an incomplete CEP will result in the ECS returning the CEP to the school district, charter school, or renaissance school project for revision.

Step 5: Complete the Statement of Assurance (Appendix D)

The Statement of Assurance is submitted with the Comprehensive Equity Plan to ensure district, charter school or renaissance school project compliance with statute and code. The chief school administrator, charter school or renaissance school project lead person must sign and date the Statement of Assurance in the space indicated at the bottom of the form.

Step 6: Obtain Board Resolutions

The following Board or Board of Trustee (Board) resolutions must be attached to the CEP:

- Annual resolution appointing the Affirmative Action Officer for 2025-2026 school year;
- Board resolution authorizing the Affirmative Action Team to conduct the needs assessment and develop a CEP; and,
- Board resolution approving the CEP and authorizing its submission to the ECS.

Step 7: Assemble the Submission Package

Assemble the submission package in this order:

1. Statement of Assurance (Appendix D)

2. Resolution appointing the Affirmative Action Officer
3. Resolution authorizing the Affirmative Action Team to conduct the needs assessment and develop a CEP;
4. Resolution authorizing the submission of the proposed CEP.
5. List of Affirmative Action Team members (Appendix A)
6. District, Charter School and Renaissance School Needs Assessment (Appendix B)
7. Comprehensive Equity Plan Corrective Action forms, if applicable (Appendix C)

Step 8: Submit the CEP

Submit one (1) original CEP to the County Office of Education on or before Monday, June 23, 2025. The contact list for the county offices of education is available on the NJDOE [County Information and Services](#) webpage.

1	In correlation with Marzano, Domain 2, Element 3: <i>Attention to Established Standards</i> , continue to build our district and teaching staff's capacity to ensure that lesson and unit plans are aligned with established content standards and the manner in which content is sequenced.	Teaching Staff	<ul style="list-style-type: none"> Goal 1 is aligned with the Marzano teacher evaluation model framework. Goal 1 directly addresses District Professional Learning Goal 1, aligning with focus element Domain 2, Element 3: <i>Attention to Established Standards</i>. The focus of the East Greenwich Township School District continues to be on providing a quality and rigorous education to all students. Goal 1 fosters the idea that effective preparation leads to improved decision-making in the classroom, which in turn, results in higher gains in student learning. With the introduction of new NJSLs in the 2024-2025 school year, teachers are provided with opportunities to cultivate clear and consistent learning goals to help prepare students for success. When teachers have a deep understanding of what students are expected to learn at specific grade levels and bands, teachers can effectively understand and support student learning. The desired effect of Goal 1 is that all teachers ensure that lessons and units include the important content identified by the district and the manner in which that content should be sequenced. This will lend itself to student learning activities that execute skills, strategies, and processes that enrich students academically. Goal 1 focuses on establishing a teachers' capacity in understanding the updates of the NJSLs which will provide a challenging and exceptional educational experience for our students, which is an exemplification of our district's mission statement and core set of values.

1: Professional Learning Goals

No.	Goal	Identified Group	Rationale/Sources of Evidence
1	In correlation with Marzano, Domain 2, Element 3: <i>Attention to Established Standards</i> , continue to build our district and teaching staff's capacity to ensure that lesson and unit plans are aligned with established content standards and the manner in which content is sequenced.	Teaching Staff	<ul style="list-style-type: none"> Goal 1 is aligned with the Marzano teacher evaluation model framework. Goal 1 directly addresses District Professional Learning Goal 1, aligning with focus element Domain 2, Element 3: <i>Attention to Established Standards</i>. The focus of the East Greenwich Township School District continues to be on providing a quality and rigorous education to all students. Goal 1 fosters the idea that effective preparation leads to improved decision-making in the classroom, which in turn, results in higher gains in student learning. With the introduction of new NJSLs in the 2024-2025 school year, teachers are provided with opportunities to cultivate clear and consistent learning goals to help prepare students for success. The desired effect of Goal 1 is that all teachers ensure that lessons and units include the important content identified by the district and the manner in which that content should be sequenced. This will lend itself to student learning activities that execute skills, strategies, and processes that enrich students academically. Goal 1 focuses on establishing a teachers' capacity in understanding the updates of the NJSLs which will provide a challenging and exceptional educational experience for our students, which is an exemplification of our district's mission statement and core set of values.
2	In correlation with Marzano, Domain 1, Element 18: <i>Examining Errors in Reasoning</i> , continue to build staff capacity in deepening students' knowledge by examining their own reasoning or the logic of	Teaching Staff	<ul style="list-style-type: none"> Goal 2 is aligned with the Marzano teacher evaluation model framework. Goal 2 directly addresses an element in our teacher evaluation system, Marzano - Domain 1, Element 18: <i>Examining Errors in Reasoning</i>. Effective use of error analysis and its impact on critical thinking deepen student learning and critical analysis. Students are driven beyond basic understanding to a more profound engagement. <i>Examining</i> errors in reasoning enhances student problem-solving skills; understanding and addressing common errors is pivotal in preventing them in the future.

	information as presented to them.		<ul style="list-style-type: none"> Effective use of examining errors in reasoning within the class fosters growth mindset, creative thinking skills, and enhances metacognitive abilities - students view mistakes as opportunities for growth and learning; students gain insight into their own thinking processes and learning strategies. Goal 2 is in direct correlation to a targeted instructional strategy that aligns to New Jersey Student Learning Standards, as student evidence displays a deep understanding of errors and informal fallacies in information and the overall structure of an argument to support a claim. Goal 2 empowers students to identify support for their perspectives using the appropriate evidence.
3	Continue to focus on the academic and social-emotional needs of students through a multi-tiered system of support.	All Staff	<ul style="list-style-type: none"> Utilization of tiered systems of supports for both academic and mental/emotional well-being will assist in providing holistic supports to students. I&RS processes will focus on development, implementation, and review of tiered strategies, interventions, and supports. Goal 3 focuses on establishing a multi-tiered system of support that challenges students academically, while providing a strong social-emotional foundation for the “whole child” so they can thrive. This is an exemplification of our district’s mission statement and the core set of values created by the Samuel Mickle Mental Health Team. This goal supports the East Greenwich “Enhancing School Mental Health Services Project” grant in partnership with The NJDOE and Rutgers Center on Comprehensive School Mental Health, as well as the district goal to solidify a tiered system of support to reach all learners. From both an academic and social-emotional perspective, there is a focus of engaging in a continuous cycle of analyzing data, differentiating instruction, and reflecting on progress.

Emergency Virtual Instruction Plan

2025-2026

Pending approval by the East Greenwich Township Board of Education
on June 11, 2025

Introduction

In April 2020, Governor Murphy issued an executive order that became P.L.2020, c.27. This law provides for the continuity of instruction in the event of a public-health related district closure so that LEAs can utilize virtual or remote instruction to satisfy the 180-day requirement pursuant to N.J.S.A. 18A:7F-9.

In order to provide transparency and ensure that New Jersey students continue to receive high quality, standards-based instruction, each school district, charter school, renaissance school project and Approved Private School for Students with Disabilities (APSSDs) must annually submit its proposed program for virtual or remote instruction (plan) to the Commissioner of Education.

This plan would be implemented during a district closure lasting more than three consecutive school days due to a declared state of emergency, declared public health emergency, or a directive by the appropriate health agency or officer to institute a public health-related closure. A superintendent must consult with the board of education, if practicable, prior to implementing the school district's plan of virtual or remote instruction.

A day of virtual or remote instruction, if instituted under a plan approved by the Commissioner of Education, is considered the equivalent of a full day of school attendance for the purposes of meeting State and local graduation requirements, awarding of course credit, and such other matters as determined by the Commissioner of Education.

Any district program of virtual or remote instruction implemented for the general education students shall provide the same educational opportunities to students with disabilities. Special education and related services, including speech language services, counseling services, physical therapy, occupational therapy, and behavioral services, may be delivered to students with disabilities through the use of electronic communication or a virtual or online platform and as required by the student's Individualized Education Program (IEP), to the greatest extent practicable.

Instruction

Equitable access to instruction will be provided to all students.

Connectivity

Students who do not have internet access will be provided with access to the internet.

Devices

The district maintains a supply of Chromebooks, and students in preschool and Beginners in need of a device will be provided one. Students in grades 1 and 2 are assigned a district Chromebook for use when in school. In the event of an unexpected closure, pick up times will be arranged, so families can pick up a device at the school. Students in grades 3 through 6 are assigned a district Chromebook.

Instructional Day

In the event of an emergency closure, the district will maintain the same daily schedule as an in person learning day. The school day begins at 8:40am and ends at 3:20pm. Staff and students will follow their in-person schedule for academic instruction, special area instruction, related services, lunch and recess. Synchronous learning will be provided via Google Classroom for all content area and special area courses. Lunch and recess will be asynchronous.

In the event of an extended emergency closure, the instructional schedule may be adjusted to include four hours of synchronous instruction and two hours of mixed synchronous and asynchronous instruction. During the two hours of mixed instruction, students may be assigned asynchronous instructional activities, such as independent reading, independent assignments, and/or online practice. During this time, teachers will work synchronously with individual and/or small groups of students to provide differentiated instruction. A schedule will be shared and posted for parents and guardians.

Delivery of Instruction

A blend of synchronous and asynchronous learning will occur. Factors such as the anticipated length of closure and the developmental needs of the students will be considered when determining how instruction will be delivered and which materials/resources will be used.

Google Suite for Education, specifically Google Meet will be used to deliver synchronous instruction, and Google Classroom will be used to provide access to materials for asynchronous instruction. All staff and students have active Google accounts.

Special education related services, when permissible by law, will continue to be provided virtually.

Student Progress

In a virtual environment, student progress will be measured in a variety of ways. Formative methods, such as teacher observation, student participation, review of student assignments, virtual rating scales, exit tickets, etc. will continue to be used in the virtual environment. Summative assessments, such as tests and projects can also continue to take place in the virtual environment, using online subscription services and platforms. Additionally, small group instruction and 1:1 virtual sessions will be used to assess students.

Special Education Needs

Special education students will continue to receive instruction virtually through both synchronous and asynchronous instruction

Related services will continue in the virtual environment where permissible by law. Student progress monitoring will continue to ensure students' progress is documented.

Based on the anticipated length of closure, case managers may contact parents regarding how specific modifications and/or accommodations are implemented in a virtual environment.

IEP meetings, evaluations and reevaluations will continue to occur in a virtual environment.

Addressing English Language Learners

In a virtual environment, services will continue to be delivered to ELL students. Access to technology and materials will continue to be available. Translated and leveled literacy materials are available via Google platform. Differentiation and technology will be used to support the instructional needs of students.

Communication with families of ELL students occurs electronically with the support of Google translation features through the Google Translate application.

Depending upon the length and purpose of the closure, additional, specific training may be provided to staff to ensure culturally responsive teaching and learning, socio-emotional learning, and trauma-informed teaching for students.

Attendance

Attendance will be measured daily at 8:40am. This is the start of synchronous virtual instruction. During synchronous classes, attendance will be taken. During asynchronous work time, attendance will not be taken. Students must be logged into the meet and participate to be considered present.

The district will follow all current policies and procedures for attendance (and non-attendance) in a virtual environment. After 5, 9, 12, 15 and beyond absent days, a letter will be sent by the respective principal to the parents indicating the serious nature of continued absences.

After a total of fifteen (15) days absent, a doctor's note will be required for each additional absence. In addition, a conference will be held with the parent, school nurse, guidance counselor, classroom teacher and the principal to develop a plan of action to correct chronic absenteeism.

If the parent does not comply with the doctor's note request, a conference will be held with the Superintendent and the above mentioned staff members.

Meals

In the event of a closure, meals will be provided to qualifying families. The district will establish and publicize a schedule for meal pick up and/or delivery.

Facilities

In the event of an extended closure, the buildings will continue to be maintained. Based on the reason for the closure, the building maintenance shift schedule may be adjusted to accommodate for health and safety reasons.

Other Considerations

Our Gifted and Talented courses, Take Flight and SOAR, will continue in the virtual environment. Enrichment activities for all students, such as STEAM class, will continue in the virtual environment. Instrumental music lessons will continue in the virtual environment. Clubs may continue in the virtual environment; however, due to the nature of the club and the typical activities, adjustments may be made for a virtual environment or the club may be temporarily suspended.

Basic skills and other academic interventions will continue in the virtual environment.

The social and emotional health of all will continue to be a priority. Monthly counselor lessons, small group and individual counseling sessions will continue in the virtual environment for students. Staff has access to free mental health services through our Employee Assistance Program with Cooper University

Hospital. Care Solace will continue to be used to assist staff and parents in locating mental health resources in the community.

The before and after school program will not take place when the physical building is closed due to a public health emergency. To the extent possible, community programs will continue in the virtual environment. The district will work with the provider to support a virtual platform.

Essential employees will be identified based on the reason and expected duration of a public health emergency. A list will be provided to the county office at the start of the closure.

Essential Personnel

In the event of an emergency closure with a shift to virtual instruction, essential personnel are those who are required to report to work in person to ensure continued operations. The list of essential staff members will be adjusted based on the length and purpose of the closure. In the event of an emergency closure, the list below will be updated and shared with the Gloucester County Office of Education and district employees.

Essential Personnel List (subject to change based on length and purpose of closure):

Superintendent

All administrators

All directors and managers (Cafeteria, Facilities, IT, Transportation)

School District Litigation Against Social Media Companies

Social media harms the cognitive, linguistic, and social-emotional growth of children. Each year, new studies reveal the detrimental effect that prolonged social media use has on children and adolescents. The legislative response to this growing crisis has been unsatisfactory, forcing school districts across the country to shoulder the responsibility of dealing with the repercussions of this ongoing crisis. The courts, however, have provided an avenue for school districts to fight back.

Wilentz, Goldman & Spitzer, P.A. is filing claims on behalf of school districts, seeking compensation from the social media companies for their role in creating and supporting the social media public health crisis facing our youth today.

This memo provides an overview of the pending litigation against the following social media companies: Meta Platforms, Inc. (Facebook, Instagram), Snap, Inc. (Snapchat), Bytedance, (TikTok) and Alphabet Inc. (Google, YouTube). School districts are suing these companies for their negligence in creating and amplifying the public nuisance of social media. These suits seek financial compensation for those school districts so that they can address the harms caused by social media.

The negative impacts of social media on children and the additional burdens faced by school districts tasked with educating and protecting them cannot be overstated. For example, schools have been forced to hire additional staff, counselors, and personnel in response to increased mental health and behavioral issues. Schools have also implemented or expanded mental health programs for students, trained teachers on mental health issues, and updated school policies to address the use of these social media platforms.

This is an opportunity for school districts to further protect our children by forcing these companies to change the way they do business, and to help provide those districts with the financial compensation they will need to help address this crisis.

Our representation of each district in this litigation is offered on a contingency basis, meaning that the district will not have to pay any out of pocket attorney's fees or expenses. Our firm only receives a fee and cost reimbursement if the district receives compensation.

Public opinion of these social media companies is at an all-time low, while their market capitalization is near an all-time high. Simply put, while there is no guarantee of a recovery, these companies are extremely profitable and extremely vulnerable. Now is the time to get involved.

With that in mind, we turn to the litigation itself.

Background

Recent scientific studies have made clear that American children are suffering an unprecedented mental health crisis, a crisis fueled by addictive and dangerous social media products. This crisis has grown more prevalent over the past decade, as Americans' engagement with social media grew exponentially. **This explosion in usage is no accident – it was the direct result of the social media companies studied efforts to induce the youth of America to compulsively use their products.** Borrowing heavily from the behavioral and neurobiological techniques used by the cigarette industry, social media companies embedded an array of design features in their products which aimed to maximize youth engagement. This exploitation of one of the most vulnerable sectors of our population was done deliberately and for profit.

Since October 2022, hundreds of school districts, municipalities, individuals, and Attorneys General across the country have filed lawsuits against the aforementioned companies seeking redress for harms caused by the addictive nature of their respective social media platforms. Though these lawsuits have been filed across the nation, they are now consolidated in the Northern District of California (4:22-md-03047-YGR).

These lawsuits are not without precedent. In fact, these lawsuits are, in large part, tracking the legal strategies utilized in the recent, very successful JUUL litigation. In the JUUL case, school districts across the country alleged damages caused by the addictive nature of e-cigarettes within the school systems. That litigation resolved via settlement, with the JUUL defendants ultimately agreeing to pay \$436 million to over 1500 different school districts.

Benefits to the Participating School Districts

Additional School Resources

In these cases, we are pursuing not only past monetary damages that districts have suffered, but also compensation to address future costs that districts may expend to manage this epidemic within the school systems. Such costs may include having hired, or the future hiring of additional mental health counselors. As this crisis continues, undoubtedly schools will need to retain staff with specialized training and skills to support the children's needs and general well-being. We will be seeking compensation for the school districts so they can invest the additional resources back into their schools.

Proactively Addressing a Public Concern

This mental health crisis is a matter of public concern. The Defendants involved have operated for years, raking in billions of dollars annually, with complete disregard for the well-being of our nation's children. This case represents an opportunity for the school districts, which have expended countless resources, to force these companies to change their harmful policies and make a positive change within our educational systems.

Limited Staff Time and Requirements

Unlike common litigation that school districts are involved in, this litigation will not require an immense amount of staff time and involvement. We expect that staff involvement in this matter will be minimal. This staff time may include assisting us in responding to written questions from the Defendants and possibly limited document production. It is unlikely that this case will require administrators or staff to be deposed or make an appearance in court.

Our Firm

Wilentz, Goldman & Spitzer, P.A. was established in 1919 and is one of the largest litigation practices in New Jersey. Our firm and its Mass Tort/Class Action team is a national leader in complex litigation, mass torts, environmental recovery and product liability litigation, and our team of accomplished litigators offers over 200 years of combined experience in managing large-scale litigations.
