

East Greenwich Solar Energy Cooperative
ADDENDUM NO.1
Proposal Number: EA-02-14
May 19, 2016

Addendum No. 1

Please include in your proposal the percentage of solar output of the final size of the PV System that your firm will guarantee will be delivered to the Board.

The Board, in determining the successful proposer, will consider whether or not the proposer was willing to guarantee any percentage of output, and if so, how much.

Failure to include such information in the proposal may serve as grounds for rejection of the proposal.
